## 1 THE INTRODUCTION

This magazine was inspired by Jeff Smart's **ILLEGAL** papermag which was one of the best papermags ever made on the old C-64.

Also we would like to thank the following people for supplying us with all latest news and informatins...

Big thanx must go to: Mathias, Mr. Hyde (for printing this on his Atari ST), Exe-cuter, Eddie, Stefan/Invisible Crime, Sky-line, Ulf/Defjam, Starbyte Software, Dooley and Fantasy/Powerslaves and all the other suppliers worldwide...

We hope you like our **CRIMINAL**. Write some articals and have fun...

Red Sector Inc. Number one...

SIR MIGHTY AND IRATA ALIAS THE EDITORS!

## 2 HIGHLIGHTS and DOWNLIGHTS 1989

Yo! What were the most important things released in 1989?

- I just think the most important de-sasters were the fuck up and new style of cracking...
- Paying for games and cracks that were not released in the shops. I enjoyed the return of **ORACLE** ... Hello George and Lee!!...
- **QUARTEX** became to the leading crew of 1989 and cracked/released every game that came to the shops.
- **PARANOIMIA** was found so the **WORLD OF LAMERS** continue in a new way... I am not afraid of any

group like others who are afraid of the leading elite crews around.

- We in **RED SECTOR** stopped our C-64 actions so watch out for more quality wares released from us on Amiga and Ibm...
- **DEFJAM** returned to the real kind of cracking after a few month of darkness...

- **VISION FACTORY** climbed to the top again by releasing lotsa cracks in the end of 1989.
- **MEGAFORCE**, **ACKERLIGHT** and **UNIT A** quit their **AMIGA** actions after they got busted or pissed of the scene!!
- A few new cool group like **QUICKSILVER** and **TARKUS TEAM** were found and released some games in the end of 1989!
- ...but also a few "old" crews returned to release some fresh stuff again like the strikeback of **TRISTAR** and **DCS**...

- A lot of european groups run a board here in europe to trade some stuff by modem so nobody needs to call the states to get some stuff anymore!!
- After VISION FACTORY started the first BBS in Europe more and more cool boards were add in Germany, Austria, Sweden, Holland, Italy and England...
- After a long delay SUBWAY, DCS and even not last RED SECTOR started their own papermag so i hope there will be a cool connection between this mags

I think the leading groups of 1989 were QUARTEX, VISION FACTORY, DEFJAM/CCS, ORACLE, PARANOIMIA, TRILOGY, ACCUMULATORS, BAMIGA SECTOR ONE, SUBWAY, SPREAD-POINT, THE BAND, BLACK MONKS, EAGLESOFT and last not least we in RED SECTOR INC...

My wishes for this year (1990):

1. All lamers will be kicked away...

2. The old spirit of being a cool cracking group will return to the AMIGA.
3. That more fun will be added to the scene like in the beginning in 1986.
4. We wish all our best greetings to all our friends around...

PPS: This articeel is dedicated to my real friends (without any computer) and ofcouz to all or FANS! Keep cool and enjoy life...  
IRATA-RED SECTOR INC.

### 3 STORM - A WORLD-WIDE WAR STARTS!

As you might have noticed the whole cracking scene declares **WAR** against that stupid **STORM** after they gave an interview about phreaking and using AT+T's or other stuff.

This shows again how stupid and silly AMIGA-guys are nowadays !?!

We surely hope that nobody will get any hard problems !?!

Anyway **STORM** got some real problems by now... For example their Knock Out at the CEBIT'90. (Great work Coke/TCC)

Maybe the whole scene will have to change. Maybe the Americans have to call us for new wares now, like on the C-64 where **YOU** get called by Americans deep in the night... Who knows !?!

Another solution might be the opening of some european boards like the most elite groups did already...

Anyway time has got to pass and we have got to see what happens...

## 4 PARTY DISASTER — THE REAL REASONS!

Well, because I heard a lot of people saying stupid things about what happened last year in Nistelrode/Holland at the BAMIGA SECTOR ONE party I decided to write a few lines to tell you the truth about that story. It all began because we in EUROPE spreaded the game Knight Force about a week before the official release date.

We got it directly from the french coder of the company Titus. Unfortunately this guy got busted by his company when they found some pirate-stuff on his working desk on the tuesday (well, thats a strange part but that's what the people at Titus told me, even if I think it's more because they wanted to get rid of this guy (cool company, isn't it?)). After two days of jail and with many threat from titus (like: if you talk we won't do anything to you) the guy decided to give them my address, because I was the leader of the top group which spreaded Knight Force. They arrived

at my home on the thursday, early in the afternoon while I was at school, and only found my mother at home, but they began to search the whole house for pirate stuff. The guy had already told them everything about the modem, calling cards and even about my phonebook (which I had in my pocket calculator!).

We're looking forward to some cool editors in the United States & Canada so if ya wanna cooperate don't delay and write today! Every note, information or improvement to the magazine is welcome. We're also going to make some charts so if ya gonna support us send us your charts to our adress mentioned below...

We have to say sorry for the long delay of this issue but there were a few problems, but now we will create a cool magazine for you satisfaction every month!

Special thanxx must go to DAVE/DCS, MARK/Subway for their special work and help in moral ways of producing this cool mag! Have fun and I wish ya all the best for Stolen DATA & System 4!

SIGNED: IRATA

They looked in it and found the phones of two other people, one member of Europe (our Cracker) and one member of Quartex (the french cracker) but also the phonenumber of my girlfriend and many other private ones. They never found any addresses at my home but I don't know about the others. What they did was, that, while they were taking me to the police station, they phoned their H.Q. to find the addresses of the phone numbers they had and that's it. Quite a few of my friends had visit from the police the same night but only two of

them had something to do with the Amiga-scene. They also found an invitation for the Bamiga-party. When I arrived home, back from school, there was nothing to do, they were only waiting for me and so we had to spend one night in jail. The funny thing is that the guy of titus was there all the time, it's him who tested all our disks to check for pirate stuff (how strange some of my source-codes disappeared!) and it's him who asked the police to go in holland and check for versions of his shitty game. I think everyone who was at the party knows the rest of the story. It's funny to see how those guys (Titus) can be dirty coz' about three days after all that, they bought about 4 originals of DPaint and many things like that (were they working with illegal stuff before???) If you'd like to tell them what you think about their visit in Holland and what you think about their shitty games then write to:

Titus Software, 28 ter avenue de ver-sailles, 93220 Gagny, France; or phone: (1)43-32-10-92.

Have fun!

## 5 CRIMINAL...OR WAS IT BUSINESS ??!

Yo RSI fans around... You are maybe asking yourself why we changed the name of our magazine from BUSINESS into CRIMINAL !?

Well, the answer is very easy... After some weeks of creating the first issue of BUSINESS we saw, that there was another mag in the scene, also called BUSINESS! That mag is done by the fab C-64 group called DOMINATORS...

So we decided to change the name into CRIMINAL... Anyway CRIMINAL sounds much cooler than BUSINESS, he ??!

I have to apologize for the lame delay of this first paper issue but I hope you still like this peace of paper made by your favorite cracking group around: RED SEC-

TOR INC.

## 7 CEBIT'90- A SMALL REPORT!

Yep... Once again the CEBIT in Hannover/West-Germany opened its doors! On saturday at 13 o'clock there was the usual SCENE-MEETING at the COMMODORE stall... But as usual me and Dooley/MAD arrived too late... So we drove directly to the APEX-TIME OF

PERFECTS-SPREADPOINT party ! We arrived at about 18'o clock and saw a lot of guys standing in front of the "party-building". The doors were still closed so we wondered that we arrived not too late, as we do usally...

After a while the doors opened and everybody could get in for free!

After some organiziser problems in the beginning it was a nice "talk and drink" meeting! If you came there to copy some new stuff you had visited the wrong party...

Nearly the whole elite like SUBWAY (Hi Mathew! Cool talking with you at the CEBIT on Sunday! Contact me, comrade!), ORACLE, TRISTAR/DCS, ALPHA FLIGHT, VISION FACTORY, THE BEST and so on, and so on!

At about 21 o'clock me and Dooley drove to the RELINE party. (Thanx to Cocaine/APEX for driving!). There we had some fun with the gratis-drinks! We had a really nice day!

See you all again next year... Special hi and thanx to SCS of RED SECTOR for a cool time at his place after the meetings!
