# EDITO

by LKJ/TRANSKOM

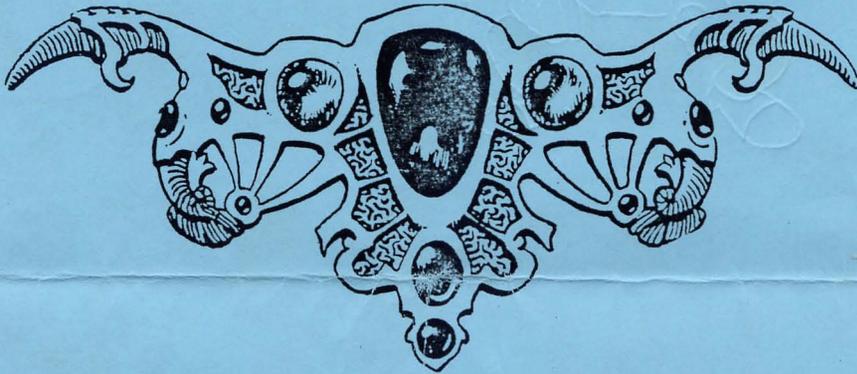

The fourth issue, of the magazine that some call "The new Illegal". Err in fact, our aim wasn't to make a magazine better than the Illegal (it was too easy), but make the first magazine wich doesn't lick others ass !

Of course, the laserwriter  and the apple  for everybody who wonder how much it costs (11 500 \$) is also a reason of producing the ★ CCCP ★, coz what is the art of making a mag only written in this style or this one, when we can do that !

Alright, it's time for the hellos so here they are, some hand(le)shakes and some kisses to the following people (I hope you've understand the hand(le)shakes are for boys and kisses for girls !):

Alain (Hobbit/FLT), Lars (Blaze/DOM), Torsten (X-RAY), Hugo (Firkin/SDW), Tom (Axiom/BB), Mag (*pas la tienne MK, quoique je la salue quand même*), Val, Sophie, Isabelle, Rada (*prepare to receive us there in Yougoslavia, it could be better than last year...*), Ang (*yes, come in June*)...

Uh, I forgot to greet some good pals like Paul (Acid/XMEN), Jay of Destiny in the hostile country called USA (*In a reporting, they announced this rate : In 1985, 5 people have been killed by bullet in Canada, 8 in U.K., 46 in Japan and ... 8092 in your country. Anyway, I'd like to live in your town, San Diego, the beach and so on, hum what a dream !*), Greg (both).

## WOWZA !!!

Yep, again I'm here to write or tell or teach ya some news ! So here we go !!!

 In the last ★ CCCP ★, I write that INXS returns, so after some problems they won't be return anymore us INXS. But they think they want return in a couple of month under an new name. Good luck boys !!!

 Some Shittalkers (*Ha, they are ever in the scene and won't never die !!!*) said that 711 is now dead. No the true story is that they don't stop his work and are further one of the 3 leading groups in Germany (*with Elite and X-Ray*).

 Some guys from Switzerland wick sells software but the biggest surprise is, that they take our name "X-Ray" and when they got any cracks from us, they send them to his subscribers (*the guys wich buy the stuff*) and they said that are his crack !!! Now remember, the Fleet of X-Ray had only members in Germany and Austria and not in Switzerland !!!

 The Flashes are nearly dead cause the most guys left them to open a new better group, they said. The name of this group is BABOONS.

*So that's all for this month...*

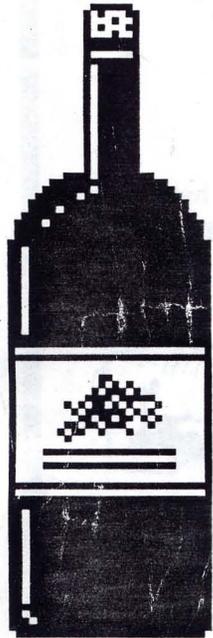

### The Fleet of X-RAY

# EUROPEAN CHART

We don't care about it this month, because all crackers have been lazy, so we have make instead :

## THE MOST DRUNKEN FREAK TOP TEN

1st	Jeff / ELITE	<i>Normal ! He can't stand it ! (now he knows what a Danish toilet looks like)</i>
2nd	Black Shadow / FLT	<i>Remember anything about the party ? (Except you bed !)</i>
3rd	Chris / X-RAY Malibu / TCOM LKJ / TCOM Hobbit / FLT	<i>EX-EAQUO ! Just enough drunken to do stupid and funny things ! Not enough to puke ! Will they ever puke anyway...</i>
7th	Norman / ELITE	<i>THE STUNT MAN ! Remember the chairs ? Of course you don't !</i>
8th	Strider / FLT	<i>Big boys can stand it ! Don't they ? Try to reach the top next time !</i>
9th	Side / HTL	<i>You have much to learn ! Take Jeff's example except for what you know !</i>
10th	Speedcracker / ELITE	<i>No comments !</i>

## COWARDS ???

Are you not smiling when you read in a scroll : *"Please, send my disks backs..."*

Those few words show that, if the guy hasn't sent the disks back yet, it's certainly b-coz he don't want to swap with you anymore, **so it proves you're lame !!!**

And the peoples who entreat by a long *"pleeeaaaaaazzzzzz..."*, why do you don't write instead : *"Send back my disks, asshole, or if I see you in front of me, I'll smach your face to pieces !"*

Ok, I thanx NFC for the idea, because it was in one of their scroll I read the first quotation.

Speaking about NFC and its magazine "PIRATES" (written with a type-letter), they said :

"If you don't send back your vote for our crackers chart, we stop trading..."

Ok, **Jumpie** (name of a 15 years old child), I will not receive anymore of your **crap demos** nor your magazine in wich you write to be the best in Belgium (*Utopia ! The only worth people are Hobbit and Shadow*) and all braggin articles about you. I don't speak about **your cracks** because they **come one** (or may be 2) **weeks after everybody** else, and **your versions are the worst ones**, so you save me time and money...

# THE PARTY IN DENMARK...

WE were 5 (Greystoke, MK, Malibu, Hobbit, of FLT and me) to go there, hoping for a great party. AND IT WAS A GREAT ONE, and there is the story :

The first day nothing cool happened, a surprise came at 8pm the friday, just when Strider and the "others" arrived, it was funny to see all these Flt'ers already present at the party gathering to Strider after his call (in a loud voice), like the man who calls his dogs...

All the day we spook with **Dominators** (Matrix, K.Kid, Blaze and Cosmo), **Fairlight** (Hobbit bien sur, but also Viper (who's got a strange hair-dress), Bacchus, Gollum (fired from your work; don't worry, me too !) and the Alchemist), all at **X-Ray** (I'll speak about you later...), **Ikari** (what a pity the competition wasn't honest, the Danish section is still uncool), **Cosmos** (SSD & ATT)...

The best was yet to come, time was about 2am, and Malibu and me decided to sleep. So, we searched for a room, found a quiet one (before we were drunk...) and so were ready to sleep... At this moment, there's X-Ray entering and saying :

- Are you interested to drink with us ???

- (the answer is obvious...) YESSS, of course.

When Remy (Malibu) drank the Cherry for the first time, he believed his throat was burning... I just answered "Tsss, pussy", but when I drank it... ARRRGGGHHHHHH

- How many degrees X-Ray ???

- Err... About 80°

Gasp ! The only way to calm this, was to drink Batida with only 16°. Once calmed, why not to try again, and so on...

You probably remember there were girls there (but some couldn't be distinguished to be man either woman, Hello Triad), the first I saw when I was "hot", I remember having insulted her in French, it's very convenient, coz she didn't understand !!!

While atmosphere was cool (thanx alcohol !), we met the best in ou room, where some raving things happened like :

☞ **Chris of X-Ray** setting the fire by spilling Cherry on the floor and kidling it and everybody looking this fire without trying to stop it... Jeff Smart, you were lucky, coz it burnt 20 cm close from you while you were sleeping !

☞ **Norman of Elite** who threw oneself through a bunch of chairs, waking up all the other sleeping people.

☞ someone of **Cheyens** who durst to go in our room to sleep, after many insults, he went back to find another room.

☞ **Hobbit of Fairlight** who wedged his fingers into a moving trash-can when he was into it and during I pushed him all over the room... You know now who must pay the bill for this broken thing...

☞ **Strider of FLT** when a "lamer" tried to climb on the "POTBT" (Platform Of The Best Together), Strider just ask : "How dare you meet us ?" and kicked the lamer's ass off the platform.

☞ **The cooperation of X-Ray and Transcom** to open a small beer cask, after scrambling it on the wall, it was pierced and propulsed all its contents by moss.

☞ Again X-Ray who had sprinkled the guy from **Cheyen** full of moss while he was coming back as we didn't look at him and was trying to sleep.

☞ And the best overall, the one and only who speak always about beer but who can't drink without getting ill and puking : **Jeff Smart**. He got a wan face and was rather in the toilets than outside.
